Morton Grove is a very special town. What makes Morton Grove special? Morton Grove has many amazing places to go, like the public library, all the parks, and pools. We also have a school system, that is very good.

But its not only the amazing places that make our town special, its also the people. Lifegaurds help keeps us safe during the summer at the pool. The librarians at the library work hard to provide good books and clubs. The firefighters, and police officers also keep us all safe. Our public works in Morton Grove are very important, they keep our town clean and running. In Morton Grove our teachers are very kind, they help us learn as well. With out all these people Morton Grove wouldn't be the town we live in now.

One of the best things in Morton Grove is the events that we have, such as pumpkin smash,

the farmer's market which was really fun. In all Morton Grove is a very special town because of all the people, places, and all the events. I like living in Morton Grove and I always will.
